

**IN THE SPECIFICATION:**

Please replace the paragraph begin on page 8, line 4 with the following amended paragraph:

-- Next, the electrical box 50 is placed on the holding member 12 of the tool. Preferably, a height  $h$  of the open end of the electrical box 50 is only slightly larger than width  $w$  of the holding member 12 so the electrical box 50 fits snugly on the holding member 12. Additionally, a wall 54 of the electrical box 50 ~~[[54]]~~ will enter gap  $g$  of the tool further securing the electrical box 50 to the tool 10. --
